Personal Profile

Past:

In my past I did a smaller mod project for a video game utilising python, although was back then not able into the formation path, I ingress into Restaurants where I progressed until Assistant General Manager covering General Manager for a few months in the absence of one

Present:

I am currently engaged in a 12-week intensive Digital Skills Bootcamp in Software Development with **JustIT** training. I am looking to build on my skills and further increase new skills to develop a career as a developer. I have completed several projects using HTML, Python, and JavaScript which have been posted in my GitHub portfolio.

Future:

My immediate goal is to become established in a role as a Software Developer or apprentice and work with like minded individuals from whom I can learn as much as possible during my crucial years of development.

And Learn more Programming languages as: C++ , Java and when released Carbon
